

Literaturverzeichnis zu dem Fachartikel “Warum Lügner nicht lügen können!” von Karl-Michael Haus in “praxis ergotherapie”, Ausgabe 2/2014::

Baumeister et al. (1993): When ego threats lead to self-regulation failure: negative consequences of high self-esteem. *Journal of Personality and Social Psychology*, 64, 141–156.

Chambers et al. (2003): Developmental neurocircuitry of motivation in adolescence: a critical period of addiction vulnerability. *American Journal of Psychiatry*, 160, 1041–1052.

Damasio (1996): The somatic marker hypothesis and the possible functions of the prefrontal cortex. *Philosophical Transactions of the Royal Society of London, Series B Biological Sciences*, 351, 1413–1420.

Ernst et al. (2002): Decision-making in a risk-taking task: A PET study. *Neuropsychopharmacology*, 26, 682–691.

Fishbein et al. (2005): Risky decision making and the anterior cingulate cortex in abstinent drug abusers and nonusers. *Brain Research. Cognitive Brain Research*, 23, 119–136.

Gailliot et al. (2006): Self-regulatory processes defence against the threat of death: Effects of selfcontrol depletion and trait self-control on thoughts and fears of dying. *Journal of Personality and Social Psychology*, 91,49–62.

Gogtay et al. (2004): Dynamic mapping of human cortical development during childhood through early adulthood. *Proceedings of the National Academy of Sciences USA*, 101, 8174–8179.

Haus (2010): *Neurophysiologische Behandlung bei Erwachsenen*. Berlin, Heidelberg: Springer.

Haus et al. (2013): *Praxisbuch Biofeedback und Neurofeedback*. Berlin, Heidelberg: Springer.

Hauss, Dentler (1981) *Medizinische Psychologie im Grundriss*. Göttingen: Verlag für Psychologie, Hogrefe.

Hebb (1949): *The Organization of Behavior*.

Kapfhammer et al. (2001): Trauma und Dissoziation – eine neurobiologische Perspektive (S. 114 - S.129). *Psychotherapie* 6, Bd. 6, Heft 1. München: CIP-Medien.

Knoch (2007): Funktionelle Hemisphärenasymmetrie der Selbstkontrolle?, *Zeitschrift für Neuropsychologie*, 18 (3), 183–192.

Landis et al. (1990): The right cerebral hemisphere. *Schweizerische*

Medizinische Wochenschrift, 120, 433–439.

Levesque et al. (2003): Neural circuitry underlying voluntary suppression of sadness. *Biological Psychiatry*, 53, 502–510.

Mischel et al. (1989): Delay of gratification in children. *Science*, 244, 933–938.

Nunez et al. (2005): Intentional false responding shares neural substrates with response conflict and cognitive control. *Neuroimage*, 25, 267–277.

Nyffeler, Regard (2001): Kleptomania in a patient with right frontolimbic lesion. *Neuropsychiatry, Neuropsychology and Behavioral Neurology*, 14, 73–76.

Schmidt (2001): *Neuro- und Sinnesphysiologie*. Berlin, Heidelberg: Springer.

Shallice, Burgess (1991): Deficits in strategy application following frontal lobe damage in man. *Brain*, 114, 727–741.

Spitzer (2012): *Digitale Demenz*. München: Droemer Verlag.

Starkstein, Robinson (1997): Mechanism of disinhibition after brain lesions. *Journal of Nervous and Mental Disease*, 185, 108–114.

Sturm et al. (2000): *Lehrbuch der Klinischen Neuropsychologie*. Lisse (NL): Swets & Zeitlinger Publishers.

Stuss, Benson (1986): *The frontal lobes*. New York: Raven.

Tangney (2004): High self-control predicts good adjustment, less pathology, better grades, and interpersonal success. *Journal of Personality*, 72, 271–324.

Welt (1888): Über Charakterveränderungen der Menschen infolge von Läsionen des Stirnhirn. *Deutsches Archiv für Klinische Medizin*, 42, 339–390.
